Rapid Response

As the exclusive monitoring provider for **ECG**, Rapid Response Monitoring has been our expert response partner for 20 years. Founded in 1992, Rapid monitors systems for over 1M customers and employs the most educated, courteous, highly-trained professionals in the industry today. Together we offer reliable, 24/7 protective services with a stay-on-the-line feature during emergencies from certified emergency medical dispatchers (EMD).

WARNING! This device and its charging cable contain strong magnets. If you have a pacemaker, defibrillator, or other health device susceptible to magnetic fields, check with your physician prior to using this device.

FamilyCare App

Caregivers can receive important notifications regarding the system. For safety, monitoring and awareness, Electronic Caregiver™ PremierGO can even send an alert when it leaves a home and arrives at another location. Available for family and professional caregivers on iPhone or Android mobile devices.

*The Recorded Message feature is currently not available on the PremierGO device when using the FamilyCaregiver App.
